Responsible Tourism

Maggie Holidays strives to ensure continuity in well coordinated tourism activities by different players within the tourism ecosystem and other stakeholders.

We engage best practices that promote social, economic and cultural aspects that spur positive growth and changes to the society by empowering communities through sustainable activities.

Sustainable activities include:

- Planting of trees in conjunction with Kenya Association of Tour Operators.
- Planting of mangrove trees in conjunction with Skai Kenya
- Enhancing our local communities by organizing excursions and exchange programs.
- Supporting suppliers who also practice sustainability in their organisations.
- Encouraging guests to book accommodations in certified, sustainable hotels and lodges

Vehicles And Operations

At Maggie Holidays, we have an excellent range of vehicles. We constantly renew our vehicle fleet to ensure that our travellers have a reliable, seamless, trouble-free and comfortable safari holiday, travel and tour in Kenya and East Africa as a whole. We do have a variety of vehicles meeting the specific needs of our travelers.

Safaris and tours:

For most of our safari itineraries, we use 4X4 Wheel drive vehicles for easy accessibility off the beaten tracks and comfort.

Our roads in Kenya do have some rough patches. This is where a combination of quality, well-maintained vehicles and experienced driver-guides can be the difference between a good safari in Kenya and a great holiday experience.

Airport Transfers:

We have a fleet of vehicle types for airport pick and drop-offs, full and half-day disposals in and outside Nairobi.

For Transfers we use salon cars, Toyota Noahs for private VIP Transfers, Safari mini-vans. We provide 25 – 45 passenger seater coaches for groups. For special event upon request, we can provide transfers in a Mercedes Benz or luxury 4x4. Our vehicle interiors are spacious and designed with the safari traveller in mind. Pop-open roofs allow panoramic game viewing as well as protection from the sun. A cooler box provides chilled water and vehicles also carry a first aid kit and other tools to be prepared for any bump along the way. All seats have seat belts and pass rigorous safety checks before each safari.

Professional driver guides

Our drivers and driver-guides are well trained and must have extensive experience before they take our travellers on safari. Many speak a number of languages including mainly English and upon request we avail French, Spanish, Italian and German speaking drivers.

Membership Accreditations

MHEA enjoys the endorsement of the Kenya Tourism Regulatory Authority (TRA) and is a member of KATO (Kenya Association of Tour Operators), SKAL International and supported by the SheTrades international Trade Center ITC.
